## LENSBABY 3G

lensbaby, perhaps the coolest third party digital SLR accessory out there, has been redesigned. The new **Lensbaby 3G** allows users to bend, lock and fine focus, thanks to a revamped locking mechanism, combined with a focusing ring. With these additions, a whole new level of specificity is easily achieved. With magnetically levitating aperture disks ranging from f2.0 to f22, wide angle, telephoto and macro kits and much more, innovative photographic exploration is available, inexpensively. Mounts available for **Canon, Nikon, Pentax, Minolta/Sony, Olympus 4/3 and Leica R**. Find out more at [lensbabies.com](http://lensbabies.com)
